- Holds the record for five consecutive ARCA Superspeedway wins in 1990
- Has won 28 track or series championships
- Drove to victory twice in the Rite-Aid 200 and Eastern States 200

EXPERIENCE MEETS PRECISION

BEAD LOCK RINGS AND BEAD LOCK FULL COVERS
AVAILABLE IN A VARIETY OF COLORS

In racing, precision is everything. Precision separates championships from DNFs. With superior quality and extreme attention to detail, Valken Racing takes wheels to the next level. This focus on precision results in vibration-free wheels that improve straight-away speeds and significantly reduce lap times. These wheels are manufactured specifically for Dirt Modified and Late Model racing with unique bead lock system to eliminate bead failures, reduce air leakage for better handling, and protects against wheel damage in the event of a crash. Engineered to meet Jimmy Horton's exacting standards, these wheels combine the experience of a champion with Valken Racing's focus on precision.
